

Published Academic Writings of Peter Toon, 1964-2009:

(This List does not include hundreds of articles and essays

placed on the internet between the late 1990s and 2009.)

His first piece appeared in *The Baptist Quarterly* (a publication of the Baptist Union of Great Britain) on the topic of “The Strict and Particular Baptists” in 1963 when he was studying for the B.D. at King’s College, University of London. (The Strict refers to admittance to Communion and the Particular refers to the extent of the Atonement.)

His first book continued the theme of “Calvinism” and appeared in 1967 as “The Emergence of Hyper-Calvinism in English Nonconformity, 1689-1765.” It has a Preface by Dr. J. I. Packer and it was the cause of various invitations to the author to lecture in the U.S.A.
